Sustainability	Certified Hardwood All hardwood is sourced from sustainable forests certified by the Program for the Endorsement of Forest Certification (PEFC), the world's largest forestry certification system. Recycled Materials We locally source our steel and aluminium. It means we know it uses recycled content and is 100% recyclable. Duraslat™ XG is made from 90% of recycled hardwood fibres and reclaimed plastic materials, which reduces demand for virgin materials. Care Instructions	<u>Hardwood</u> Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Oiling Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour. To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required. <u>Duraslat™ XG</u> Cleaning Simply wash down occasionally. Do not use high pressure cleaners. <u>Powder-Coat</u> Cleaning Carefully remove any loose surface deposits with a wet sponge or soft bristled brush. Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water. Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues. Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.
