Care Instructions	<u>Hardwood</u> Cleaning Remove any loose surface deposits with a soft bristled brush and wipe down with fresh water and a non-abrasive cloth. Oiling Oiling of timber will postpone natural greying, repel moisture, improve mould resistance, help maintain a smooth surface texture and enhance the grain and colour. To maintain, lightly sand rough areas of timber and brush on one coat of timber decking oil every 6 months or as required. <u>Duraslat™ XG</u> Cleaning Simply wash down occasionally. Do not use high pressure cleaners. <u>Powder-Coat</u> Cleaning Carefully remove any loose surface deposits with a wet sponge or soft bristled brush. Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water. Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues. Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.
Warranty	5-year warranty. View the warranty for more details.
