DUNALLEY CIGARETTE BIN

Bins » Cigarette Bins

Highly functional cigarette bin. Tidy capsule. Concealed hook and clever mechanism allow for easy, contact-free emptying.

Description	Dunalley Cigarette Bin is a sleek, no-fuss solution designed specifically for cigarette butt disposal in public spaces. Favoured by operations managers, its compact capsule form features a concealed hook and clever release mechanism that allows for easy, contact-free emptying—making maintenance quick, simple, and hygienic. Highly functional and purpose-built, Dunalley is the ideal choice for designated smoking areas across streetscapes, transport hubs, commercial precincts, and hospitality venues.

Care Instructions

Powder-Coat

Carefully remove any loose surface deposits with a wet sponge or soft bristled brush.

Use a soft (non-abrasive) cloth or brush and a diluted solution of mild detergent and warm water.

Ensure surfaces are thoroughly rinsed with clean fresh water after cleaning to remove all residues.

Never use thinners, abrasive cleaning agents, alcohol-based, acid or alkali cleaning agents.

Stainless Steel

Wash the surface regularly using warm water containing soap or mild detergents and rinse the surface with fresh water after cleaning.

When polishing the surface with a soft dry cloth to ensure all moisture is removed, follow the direction of the grain finish.

Use a brush or soft damp cloth to remove loose deposits. Use a cream cleanser and soft cloth for difficult deposits.

Use "Star Brite Rust Stain Remover" to remove tea staining and "Star Brite Chrome & Stainless Steel Polish" to protect the surface after cleaning.

Never use cleaners containing harsh abrasives or high bleach contents. Prolonged contact with chlorine-based cleaners will cause surface pitting, which cannot be repaired.

Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.

For stubborn stains or where "deep cleaning" is required, a mild abrasive cleaner or rust remover may be required.

Aluminium

Aluminium used in public areas should be cleaned regularly with non-abrasive cleaning agents.

Wash the surface regularly using warm water containing soap or mild detergents.

Hand rubbing is often used for small work, for larger projects utensils such as soft fibre brushes may be more practical.

Rinse the surface with fresh water after cleaning.

Polishing the surface with a soft dry cloth after cleaning

Never use abrasive materials such as scouring pads, steel wool or metallic scrapers.

Never use cleaners containing harsh abrasives or high bleach contents

Warranty	5-year warranty. View the warranty for more details.
Additional Comments	Dunalley is simple and hygienic for cleaners to empty. 1. Hang your bucket on the concealed, stainless steel hook under the canister 2. Unlock the ash receptacle and slide the canister upwards 3. The cigarette butts will be released to fall into the suspended bucket without touching any contaminants The lid is designed to be a durable butting out surface for smokers, sloped to shed both water and ash. Options: 2 designs, wall fixed or supplied fitted to a post to suit your install location
